PT Indospec Asia
Inspection & Certification

PT. Indospec Asia (PTIA) has a long and robust history that began in the year 1979 as one of the first private inspection and certification company in indonesia.

As a provider of technical assurance services, including inspection and certification, our success is driven by our advanced people and advanced technologies. Our commitment is to prioritize safety and achieve tremendous results, executing each assignment with integrity, and ensuring compliance with government regulations.

We are striving to sustain and build on our remarkable success by expanding our operations' reliability and global regulatory expertise. Our focus is to proactively work with our customers to find the best solutions and applications to ensure sustainable long-term relationships and financial returns for our stakeholders.

Today, our results reinforce our entrepreneurial spirit, inspiring us to continue exceeding expectations and remaining committed to developing world-class quality.

We are looking ahead to providing exceptional services to our clients and partners, accelerating the execution of our growth strategy while continuing to live by the strength of our core values.

Widi Laksmono Soebagio
Director

PT Indospec Asia
Inspection & Certification

PT Indospec Asia (PTIA) is dedicated to ongoing enhancement in all aspects, aiming for the highest possible outcomes by nurturing our workforce and improving their skills through diverse methods. Our primary mission is to prioritize safety, quality, and adherence to government regulations, standards, and codes whenever an opportunity arises. We are certified in ISO 9001 : 2015, ISO 17020 : 2012, ISO 14001 : 2015, ISO 45001 : 2018, We possess complete government licenses for statutory inspection and certification in the Oil and Gas industry, along with other non-MIGAS certification licenses

STATUTORY INSPECTION

As a compliance to Goverment Regulation for Inspection and Certification Services PT Indospec Asia (PTIA) have a complete Licence from:

- Directorate General of Oil & Gas (MIGAS) for Equipment, Structure & Facility Worthiness, Non Destructive Test (NDT), General Survey and Engineering / Maintenance.
- Directorate General of New Renewable Energy and Energy Conservation (EBTKE) for Equipment and Facility Worthiness.
- Ministry of Manpower and Transmigration for Manpower Services and Equipment (Boiler and Lifting / Loading Equipment).

VOLUNTARY INSPECTION

PT Indospec Asia (PTIA) can provide services to the client as an independent party to perform Voluntary Inspection / Services in accordance with standards /code and / or client specification such as:

- WPS/PQR Design & Selection
- QA/QC Services
- Pipeline Integrity Services
- Pipeline, Line Pipe & Flexible Pipe Inspection
- Mill Inspection & Material Inspection / Manufacturing
- Coating, Painting & Corosion Inspection
- Condition Survey
- Storage Tank Inspection & Survey
- Welding Inspection & Welder Test
- Non Destructive Examination (NDE)
- Unmanned Aerial System (UAS) Inspection
- Risk Based Inspection (RBI)
- Testing, Commissioning and Start-up for Oil and Gas Facilities
- Facilities Maintenance Services
- Other Advisory Services as Requested

MANPOWER SERVICES

Under license from Indonesian Ministry of Manpower and Transmigration, PT Indospec Asia (PTIA) provides manpower services to oil and gas companies for upstream and downstream projects, Operation and Maintenance, including:

- QA / QC Inspector
- Discipline Engineers
- Project Engineer
- HSE Officers
- Construction Management Staff
- Project Management
- Administration and Support

We are authorized to provide manpower services in Indonesia including all administrative processes.

ROPE ACCESS TECHNIQUE (RAT)

Rope Access Technique (RAT) :

- Non-Destructive Testing (NDT): Magnetic Particle Testing (MT), Penetrant Testing (PT), and Ultrasonic Testing (UT)
- Visual Inspection
- Equipement Certification: Storage Tanks, Pressure Vessels, and Piping/Pipelines, including thickness measurement using Rope Access Technique (RAT)
- Building Maintenance and Cleaning

PROJECT MANAGEMENT

Leveraging our experience, business relationships and competence, PT Indospec Asia (PTIA) also can provide the Project Management Services for a key success factor in Oil & Gas Project.
These services will cover:

- Project Management Team for MIGAS Inspection and Certification
- Project Management for Construction
- Project Management Consultancy Services
- Project Managers and Project Team
- Project Management Training and Certification

ENGINEERING SERVICES

By leveraging our lengthy presence in the Indonesia Market of Inspection and Certification, PT Indospec Asia (PTIA) also can provide the Engineering services which will cover:

- Safety Design Analysis (QRA Reviews, HAZID / HAZOP ALARP Workshops)
- Structural Design Analysis and Review
- Failure Analysis & Technical Investigation
- Engineering Assessment, Reverse Engineering, Risk Assessment and Remaining Life Assessment (RLA)
- Development of Standard Operating Procedures (SOP) Oil and Gas Facilities
- Testing, Commissioning and Start-up System for Oil and Gas Facilities
- Operation and Maintenance Advisory
- Asset Integrity Management System
- Mechanical, Electrical, Instrument, Process & Safety
- FEED and Detail Engineering Design

OTHER SERVICES

- Operation and Maintenance Services
- Predictive Maintenance

In order to achieve a broader spectrum with our services, PT Indospec Asia (PTIA) also developed strategic alliance with:

- University of Indonesia (UI), Institut Teknologi Bandung (ITB) and Institut Teknologi Surabaya (ITS) as three major Indonesian University for Independent Engineering and Failure / Structural Analysis and Appraisal.
- Atkins Global Pty Ltd, one of the worlds most respected Design, Engineering and Project Management Concultancies
- Japan Inspection Co.Ltd. for Industrial Inspection Services, QA / QC Inspection and Power Plant Inspection in Asia.
- Korean Register of Shipping (KR). Providing certification and engineering consulting services inthe sectors of vessels, onshore/offshore oil and gas plants, renewable energy plants and their equipments.
- Thunder Oilfield Service (TOS), A world wide company specialize in Fabrication, Training API Q, API 2D, API 2 C, inspection , maintenance and Repair offshore pedestal mounted cranes and their associated hydraulic system.
- PT Indosentra Teknika (INDOSTEK). Focuses on engineering works and services built with a strong attitude, registered proffesionals in Indonesian oil and gas department with highly skilled engineers and up to date on current software standard.
- PT Indobahari Energi (IBE). A local investment limited company focused in diving contractor, supported by high quality machineries, technology, skill labour and expert technicians. IBE core business includes underwater inspection, underwater repair & maintenance, underwater works as well as ship services (UWILD, hull cleaning, etc).
